Divine Healing in Jesus Name

I have a friend who just recently became pregnant. She called me last week to tell me that she had all the signs of a miscarriage and she was certain that she'd had a miscarriage. I just texted her back and said, No! Don't give up. It's God's will for you to have that baby; she just responded and said thanks. I called her and tried to get a hold of her the next few days, but to no avail. Finally on Tuesday, she called me and said "Kimberlee!! You are the only one that was believing for this baby. I went to the doctors, they said the baby is fine, and the heartbeat is strong!" I give all glory to GOD!! Then a neighbor called me the next day, and told me I think I am having a miscarriage, and I began to share with her the testimony that just happened. She was excited and we prayed that that baby would be fine in Jesus name. Both babies are completely fine, and are growing! I give all Glory to God, and praise him for his supernatural healing!

Divine Healing from Stroke Part One

When we arrived in Canon City after church, we went straight to my parent's house like we usually do on Sundays. My mom met us as we arrived and told me that my dad had just tried calling my grandma who lives two houses down from them and something was wrong. She was slurring her words and confused. When I saw my grandma, I instantly knew something was wrong because she just looked right through me and couldn't process a coherent thought or sentence. I immediately sat her down and started praying. I was so thankful for the teaching and knowledge of praying in the spirit because at the moment, I wasn't sure what to even pray for. We took her to the hospital, and the doctors said that they believed she was having a stroke. I went into the bathroom to gather myself together and spend a moment in prayer. I just said, "Jesus, I need you - right now. I need the Holy Spirit to help me make these tough decisions because I don't have the answers." I pictured myself running to Jesus and throwing my arms around Him and just holding onto Him. Just then I heard the Lord say, "I am right here. All she needs is me and I've got her. I'm here." I just began praising God and had instant peace! We decided to go ahead and give her the clot medicine because we all had peace about it. When it was just my Grandma and I in the ER, the Lord told me, "Pray with her." I asked her if we could pray together, she said "yes". So I anointed her with the anointing oil and I prayed with her. As I prayed, tears streamed down her cheeks and when we were done she said "I am going to be okay" which was one of the first sentences she has spoken since everything started. The doctors came in and tested her mobility and said she wasn't showing any loss in movement! She spent the week in the hospital and I saw daily progress in her. The doctors were amazed at how well she is doing and they said that even though her initial CT scans had shown a stroke on her left side of the brain, the last CT scan they had done showed no signs of stroke!!! God is SO AMAZING!!!

Divine Healing from Stroke Part Two

Then on Thursday, the doctors gave her some medicine that she had a bad reaction to. It made her fall asleep immediately (which was expected), but after about 15 minutes of sleeping she began acting strangely. At first I thought she was dreaming, but then she began whipping her head back and forth and gasping for air and saying her throat was closing up and that she was really hot. She was still sedated and was having trouble talking and wasn't opening her eyes. I was standing by her bed, holding her head up and supporting her because she was nauseous and having trouble breathing. I began praying in the spirit under my breath and then suddenly she went limp and wasn't moving and it didn't look like she was breathing. I quickly anointed her and began to pray quietly for her. A few seconds later, she gasped for breath and started stirring and tossing and turning again. After a few more seconds of praying quietly, her eyes opened and she was awake and able to talk and was fine. Praise God!! All the physical and occupational and speech therapists were amazed that there were no lasting effects and that she was perfectly healthy. Glory to GOD!!! It is just so very amazing what God has done in this situation. Mitch and I are the "church people" :) in my family...my mom and dad are Catholics that never go to church, but my mom is totally open and desiring to learn, so I am constantly sharing the gospel with her...my dad believes in God, but I don't think has much understanding...and my Grandma has never really gone to church and I have really tried to share the gospel with her over the last few years as well. I can see her slowly opening up. Throughout this entire situation, I kept pointing out every miracle that God had performed and how awesome He is and they have all agreed with me!! I give all Glory to GOD!

“And they overcame him by the blood of the Lamb, and by the word of their testimony”
Revelation 12:11

Complete Healing in Jesus Name

My cousin was flown from Browning hospital to Kalispell hospital for some lung, kidney and gallbladder issues. When she arrived they were having some trouble getting her temperature to drop from 104 degrees. The lung issue they found out to be pneumonia. They also found there was some issue with a heart valve. Her second day in the hospital she went down hill and they moved her into the ICU, put her on a breathing machine after which her temperature went up to 106. Kurt, Katy and I went to see her and pray for her. Five hours later I got a message saying they had taken the breathing mask off of her and she was awake and talking some. Early the next morning they moved her out of the ICU and said they won't need to do open heart surgery on her heart valve. Four days later she was cleared to go home. The experts said she would be in the hospital for six weeks, I spoke six days she would be there, and she was there for only one week. Praise God for how awesome He is and for how He always carries through with His promises!

“And they overcame him by the blood of the Lamb, and by the word of their testimony”
Revelation 12:11

Job Divinely Supplied for

The blessings right now are absolutely overflowing right now in my life due to the teachings and power of speaking in tongues! After hearing Pastor Mike's teachings I asked Pastor G if I could call him before a very important job interview I had coming up and he agreed. Pastor G went off for me praying in tongues! I didn't understand one word he said but I could feel the Holy Spirit take over my heart. My confidence immediately went through the roof! By the end of the interview I was offered the position. I will forever be grateful for Mike and Pastor G's teachings!

The Power in Communion

A while back I sent my cousin a book on the power of communion. He has been partaking communion and is seeing results in his life. He has been sharing with the people in his church what he is learning. There was a lady who is very involved in the church that was speaking out against what he was saying about communion. She was causing a lot of trouble. He just kept praying and receiving more revelation on the power of communion. A short time later his pastor came to him and asked if he would be in charge of the communion service. Now, he is able to share with everyone the power of communion. Thank you Jesus for your favor!

“And they overcame him by the blood of the Lamb, and by the word of their testimony”
Revelation 12:11

True Liberty in Jesus

Being taught that one Word can change our lives, I am feeling so blessed today. Over the last year certain scriptures have been written on my heart. The most recent testimony comes from Matt 10:33 “But whosoever shall deny me before man, him will I also deny before my father which is in heaven.” The word empowered me with boldness in speaking the truth and over the last year almost every conversation I have had with my grandmother has resorted back to the Lord and Jesus’ finished work on the cross. On Sunday during church I received a phone call stating my grandmother was in the process of letting go and Sunday night she passed. I feel so blessed to have been given the opportunity to have those conversations and my heart is not saddened with grief only full of Joy for I know where she is. Experiencing streets of Gold and absolute Joy. All the praises go to God for if that scripture wouldn't have been written on my heart I may have never had those wonderful conversations glorifying the Most High! Thank you Freedom Ministries for always speaking the true gospel of the kingdom, so that I understand true liberty!

“And they overcame him by the blood of the Lamb, and by the word of their testimony”
Revelation 12:11

God is my Protector

During a recent Sunday service, I heard a testimony about God's protection. I boarded a bus home from a conference and wanted to take the seat closest to the exit. But just when I wanted to sit down, I felt a prompting from God that I should take the seat a few rows behind. I heeded that prompting and moved further behind. Less than an hour later, the bus mounted the curb while making a turn and it hit a traffic light at considerable speed. Instead of stopping, the bus continued to complete its turn, dragging the traffic light along for around 100 meters. Then, the traffic light that was stuck beneath the bus suddenly flipped up and hit the window on the right side of the bus, shattering the glass. The bus eventually came to a stop close to a bus stop. To my surprise, the window that was shattered was exactly at the seat that I initially wanted to sit on! Thank God for His prompting to take the seat that was a few rows behind. I was completely unharmed or disturbed by the accident. God is indeed our protector in times of trouble!
